"CON" ARTIST AT WORK UP NORTH

Weird Tales From Spokane Baseball
Meeting.

FRANCHISE FOR SALT LAKE

EVERYTHING IS ARRANGED BUT
ANGELS WITH THE MONEY.

Spokane, Sept. 15.—The directors of the Northwest baseball league met in Spokane today and elected W. H. Lucas president for the coming year and also the league's representative to the national association meeting. They voted to give Everett the pennant for 1905.

Applications have been received from Butte and Boise for places in the league next season. It is understood that Salt Lake will apply at the next meeting. The directors voted not to outline the circuit for next year at this meeting.

The treasurer's report shows the league to have broken even.

The directors state they are willing to vote Butte in next year, and expect to be the man who will eventually handle the team in Montana. Boise also has a fair chance of being admitted.

The above dispatch from Spokane plainly indicates that Salt Lake is in a position up in the Washington territory. Although it is a little early to start talking circuit for next year, yet Lucas and McCloskey are already at it and intend to push their efforts to the limit through if possible in spite of the various offers they have received.

To one who knows the above facts is really interesting. It says Salt Lake will apply for a franchise here. It is a big job, but it is a big job.

It is a big job, but it is a big job. It is a big job, but it is a big job.

It is a big job, but it is a big job. It is a big job, but it is a big job.

IVER LAWSON RETURNS HOME

Back From Successful Riding Season
in New York.

M'FARLAND COMING LATER

BOTH LEAVE FOR AUSTRALIA
LATTER PART OF NEXT WEEK.

Ivor Lawson, Salt Lake's world champion bicycle rider, arrived in Zion last evening from New York. He will remain over until Monday evening to meet W. E. Samuelson, and will leave Tuesday morning for San Francisco to catch the boat for Australia on Sept. 21.

Farland did not accompany Lawson, but will probably go direct from New York to San Francisco and catch the same boat.

Ivor says his trip east has been successful. Since leaving here he has started in eighteen races, thirteen times he came in first, four times second and once was unplaced. He did good on the money end of it and is somewhat better off than when he left Salt Lake.

In the race against Kramer for the championship, he was in a very tight place for him to win. Kramer had fifteen points start when Lawson arrived in the east, and when he left the coast he was in a very tight place for him to win.

Lawson says he is riding fast and that his friends in Salt Lake will hear from him this winter in Australia.

SAM CAPTURES BOTH PLACES

Flags Bunch For Hollister and Then
Wins the Race.

AND GETS AWAY WITH DEAL

IVOR REDMAN PEDALS IN FIRST
IN MOTOR-PACED RACE.

Flagging the bunch on the last lap of a sprint is a new one at the local sprints. It is also pretty risky business, and the rider who does it usually gets his name among the also rans as the only reward for his efforts. Last night, however, Samuelson carried the programme out to a degree of perfection which causes one to take his hat off to him. By an error, or one might say raw, a piece of flagging as one would want to see, the Pride of Provo won both first and second place in the two-mile lap handicap.

It was in the two-mile lap handicap. Samuelson, Hollister and Hollister were in the front with Samuelson on his rear wheel and Hollister in front. Instead of holding his position, Samuelson slowed down, flagging the entire bunch, while Hollister let out for the tape. When the Springfield lad had passed him, Samuelson went back and taking first money himself, he was in a very tight place for him to win.

Ivor Redman and Hollister gave an exhibition of how to break loose from the motor-paced race. While trying to get around Redman, Hollister's string broke and in a short time Redman had him lapped all but the going around. When Redman made the attempt, something happened, and the instant Redman and his motor were separated, Redman again caught his pace. Redman picked up the lost distance and won the final lap with but a second that Hollister could not head off.

Half-mile open professional, final.—Samuelson, Downing, Bardgett. Time—1:40.

One-mile amateur, final.—Hollister, Hollister, Hume. Time—2:17. West and St. Louis, after finishing first and second, for crowding Hume off the track.

Five-mile amateur, final.—Hollister, Hollister, Hume. Time—13:34. West and St. Louis, after finishing first and second, for crowding Hume off the track.

Two-mile lap, handicap (scratch).—Samuelson, Hollister, Hume. Time—2:38.

Five-mile motor-paced race, final.—Ivor Redman, Hollister. Time—5:37. West and St. Louis, after finishing first and second, for crowding Hume off the track.

Two-mile lap, handicap (scratch).—Samuelson, Hollister, Hume. Time—2:38.

Five-mile motor-paced race, final.—Ivor Redman, Hollister. Time—5:37. West and St. Louis, after finishing first and second, for crowding Hume off the track.

Two-mile lap, handicap (scratch).—Samuelson, Hollister, Hume. Time—2:38.

GYMNASIUM NEARLY DONE.

University Athletes Will Soon Be
Able to Begin Indoor Work
For Football.

Within two weeks the 'varsity' gymnasium will be ready for use and active indoor athletic work begun. At present only part of the structure is being built, as the funds appropriated have already been used. There will be no running track put in this year, and only a limited amount of advance work.

There is a feeling of disappointment among the athletes of the institution that there will be no indoor track to work on this winter, and also that the baths and lockers will not be installed. However, the gymnasium as it stands will provide ample room for indoor signal practice and handball. The upper floor will be used exclusively by the boys. The girls' apartments will occupy the basement.

At a meeting of members of the board of regents and the alumni, held at the Y. M. C. A. club rooms on Thursday, a plan of \$2,500 was made to install heat and water in the new 'gym.' The money, the biggest part of which has already been raised, will come from personal subscriptions of the alumni and regents. Besides this donation, there is yet due about \$1,500 from the university students who pledged to subscribe \$5 apiece.

It is probable that the final plans of the gymnasium will not be completed for two years, as the committee will have to await an appropriation from the next legislature. Architect Hedges states that there is all in all a feeling of disappointment among the athletes of the institution that there will be no indoor track to work on this winter, and also that the baths and lockers will not be installed. However, the gymnasium as it stands will provide ample room for indoor signal practice and handball. The upper floor will be used exclusively by the boys. The girls' apartments will occupy the basement.

Chesterfield

Double-Breasted
Suits

WILL probably reach the height

of their popularity this season. A decided change is

noted in the broad bull-dog

lapels and increased length of the

coats. Whether you have been going

to the merchant tailor or wearing

ready-to-wear clothes, our large

assortment of "Chesterfield"

hand-tailored clothes for this season

will surely interest you. Besides,

you can learn a great deal about

clothing that will be of special advantage

to you by examining the

artistic points in our "Chesterfield"

ready-to-wear clothes. Prices

\$15.00 to \$50.00
